

Table 1: Positive semantic poles of the leading principal directions: the 10 word types with the largest projection on each component, for the four representative texts. Percentages are the explained variance of the component. Function words (top $R = 100$) and types with fewer than 5 occurrences are excluded.

Text	Comp.	% var.	Top word types
Wrnpc	PC1	7.0	gerasim, maidservant, irritably, piteously, nikolaevich, andreevich, pavlovna, dmitrievna, absently, reproachful
	PC2	4.2	regiment, infantry, cavalry, battalion, squadron, brigade, naval, regiments, army, artillery
